"Unleashing Each Student's Potential"

Cale Elementary School
Home of the Colts

Once a Colt, Always a Colt

At Cale Elementary School, we aim for all students to communicate, collaborate, create, and think critically on a level necessary to be empowered to become independent, lifelong learners. Our staff and students work to create and maintain a positive and safe school that applies the skills of a culturally responsive climate, values the individual, and builds healthy social skills.

Principal Dee Dee Jones

School Highlights

Cale Elementary School is a place that prides itself on turning every challenge into a opportunity. The school has a strong focus on community building and channels most of these efforts through it's responsive classroom program. Students learn the seven principles of RC every day through their morning meeting activities and through their interaction with their teachers. Everyone in the school knows that understanding the developmental needs of students, and developing relationships with students who are being taught is just as important as the academic curriculum, and that learning the culture of the surrounding communities is a key to the school's success.

All students in grades K-4 at Cale participate in a unique world language curriculum that began at the school several years ago. This is delivered either through a Foreign Language in Elementary School (FLES) model in which students receive around 120 minutes of instruction in Spanish each week, or an immersion model in which students are taught in Spanish for fifty percent of each school day. This program continues to expand and will be serving all grade levels in the 2017-2018 school year.

Facility Information

- Built in 1990
- 91,307 sq. ft.
- Last major renovation 2015

The school is dedicated to highly engaging instruction at all levels. Students regularly are involved in interdisciplinary, project-based learning activities. Technology is integrated into all classes with students getting experiences with things such as coding and 3D design and creation using 3D printers.

Building community is also a key to the success of students at Cale. In addition to well attended monthly community events at the school such as Hispanic Heritage Night, the STEAM fair and young authors' night, teachers regularly go out into the Cale community in the evening to offer programs to parents and students to further the strong relationship they are developing in their classrooms.
