COMMUNITY MEETING

- Wednesday, November 8th at 6:30 PM
- Agnor-Hurt Elementary Cafeteria
- Purposes:
  - Disseminate Information
  - Receive Feedback
  - Answer Questions
Address current and projected overcrowding at Greer Elementary, Woodbrook Elementary, and Agnor-Hurt Elementary and to consider middle school student assignments based upon changes to elementary boundaries.

The proposed scope of the study will involve any and all elementary and middle schools determined by the committee required to meet this objective. If the committee determines that the redistricting might impact an elementary school not identified above, the committee will notify the Board and that school community.
1. Attendance areas will serve the district for at least 3-5 years with a goal of 5-7 years
2. Attendance areas will be largely contiguous
3. Walk areas for each school will be considered
4. When possible, middle school boundaries will align with elementary boundaries
5. Transportation routes will be as efficient as possible, giving consideration to minimizing ride times within acceptable parameters.
6. Neighborhoods will be assigned to the same school whenever possible.
7. Greater demographic balance amongst impacted schools will be strived for where feasible.
8. Grandfathering existing students will be considered by the Board on a study by study basis.
