William & Mary
School of Education

Summer 2019 Online Professional Development Course for K-12 Teachers

Mentoring and Coaching Teachers 2: Tools of Mentoring is a 5-week online course for practicing K-12 educators. This course will be facilitated by Dr. Sara Miller, Associate Professor of Education at Longwood University.

In this 5-week asynchronous online course, we will introduce teacher leaders to tools for helping them determine when to mentor and when to coach. Course topics include knowing when to release responsibility and build agency, knowing when to lead and guide, and navigating difficult mentoring situations.

Participants can expect to spend 4-6 flexible hours online each week to complete this course experience. Activities will include readings, asynchronous discussions, and resource explorations.

Earn recertification points

Teachers who complete the course will receive a certificate indicating they have completed 30 hours of professional learning at William & Mary which they may apply toward recertification points. All grades (K-12) and disciplines are encouraged to register. The course fee is \$150.
