

Virginia Civics' *We the People Training Program Summer Institute* will take place June 24-27 at the **Virginia Museum of History and Culture** in Richmond, VA. The *We the People Training Program* is a rigorous professional development program that brings teachers together with experienced mentors and scholars from a variety of disciplines. Participants attend lectures, interactive sessions, and a simulated congressional hearing modeled after the *We the People* culminating activity.

Participating teachers will receive a classroom set of *We the People* books and a teacher's guide, a selection of teaching materials on the Constitution, lodging and meals, and a mileage stipend. In return participants will be included in the *We the People* Training Cohort for the 2019-20 school year. This entails attending two additional one day sessions in October and March. During the year VA Civics staff will provide technical assistance and support throughout the year to assist with full program implementation.

To apply please visit, [VA Civics](#) to download the informational flyer and application. Questions can be directed to **Emily Voss, Co-Executive Director**, at emily@vacivics.org
