Sample Unit Organization
The Renaissance, Reformation and European Wars of Religion
European Exploration and Encounter
The World Beyond Europe, 1500-1700
Age of Absolutism
Scientific Revolution and Enlightenment
Age of Revolutions and Independence Movements

19th Century: Nationalism, Industrialization, and Imperialism
Age of Global Wars and Rise of Totalitarianism
The Cold War: A Global Perspective
Independence Movements in Africa and Asia
The World After the Cold War
ACPS Concepts with Grade Level Essential Standards

1. Conflict & Cooperation
   Understand that desires for resources and/or control lead to conflict and cooperation between individuals, groups, and societies.

2. Innovation & Change
   Understand that innovation creates change and all change has direct and indirect consequence.

3. Choice & Consequence
   Understand that individuals, groups, and societies make choices based on the direct and indirect consequences they expect to occur.

4. Patterns & Relationships
   Recognize and be able to explain historical patterns to better understand the relationship between discrete events across time and place.

5. Systems: Economic, Social, Geographic, & Political/Civic
   Understand that economic systems are shaped by the political and social systems in which they exist and are how groups and individuals make decisions regarding production, distribution, and consumption.
   Understand that cultural values and norms shape identity and behavior within groups, institutions, and states including the degree of freedom that exists within a society.
   Understand that geography and geographic characteristics influence the development of political, economic, and social systems.
   Understand societies employ various methods to establish and maintain order and authority and that political structures influence the degree of freedom individuals and groups have in a society.

ACPS History and Social Science Processes with Grade Level Essential Standards

**Historical Method/Investigation & Inquiry:**

1. Historical Thinking & Research
   Use and cite high quality academic resources in conducting historical investigations as well as developing and defending a thesis with evidence.

2. Multiple Perspectives
   Develop historical empathy and perceive past events and issues from the perspective of individuals and diverse groups living at the time.

3. Sources & Historic Record
   When using both primary and secondary sources, identify the author's purpose, point of view, bias, and evaluate the reliability of the source.

**Communication Skills:**

1. Using Visual Sources: Charts, Graphs, Photos, Maps & Art
   Comprehend and interpret one or more visual sources and be able to translate them into an alternate form.

2. Analytical Writing
   Develop a thesis-driven essay using documents or research and support claims through analysis of substantive topics or texts using valid reasoning and sharing relevant and sufficient evidence.

3. Critical Reading
   Identify, analyze and interpret primary and secondary sources to make generalizations about events and life in the past or to develop and defend a position.

4. Public Speaking and Presenting
World History from 1500: The Renaissance, Reformation and European Wars of Religion

Conceptual Lens
Change and Continuity: Patterns of change and continuity are complex and shape the growth and development of societies.
- **Conflict and Cooperation** – Students understand that desires for resources and/or control lead to conflict and cooperation between individuals, groups, and societies
- **Patterns and Relationships** – Students recognize and be able to explain historical patterns to better understand the relationship between discrete events across time and place
- **Choice and Consequence** – Students understand that individuals, groups, and societies make choices based on the direct and indirect consequences they expect to occur

Systems: Civilizations are defined and shaped by numerous complex and interdependent systems.
- **Social System** – Students understand that cultural values and norms shape identity and behavior within groups, institutions, and states Including the degree of freedom that exists within a society

SOL
WHII.2 The student will demonstrate an understanding of the political, cultural, geographic, and economic conditions in the world about 1500 A.D. (C.E.) by
a) locating major states and empires;
b) describing artistic, literary, and intellectual ideas of the Renaissance;

WHII.3 The student will demonstrate knowledge of the Reformation in terms of its impact on Western civilization by
a) explaining the effects of the theological, political, and economic differences that emerged, including the views and actions of Martin Luther, John Calvin, Henry VIII, and Elizabeth I;
b) describing the impact of religious conflicts, the Inquisition, and the Catholic Reformation on society and government actions;
c) describing changing cultural values, traditions, and philosophies, and assessing the role of the printing press.

| The Reformation had its roots in disagreements about theology, but it led to important economic and political changes. Religious differences and hatreds caused war and destruction. | What were the major economic, political, and theological issues involved in the Reformation? | **Reformation in Germany**  
- Princes in Northern Germany converted to Protestantism, ending the authority of the Pope in their states.  
- The Hapsburg family and the authority of the Holy Roman Empire continued to support the Roman Catholic Church.  
- Conflict between Protestants and Catholics resulted in devastating wars (e.g., Thirty Years’ War).  

**Reformation in France**  
- Catholic monarchy granted Protestant Huguenots freedom of worship by the Edict of Nantes (later revoked).  
- Cardinal Richelieu changed the focus of the Thirty Years’ War from a religious to a political conflict.  

**Catholic Reformation**  
- Dissenters prior to Martin Luther: Jan Huss, John Wycliffe  
- Counter-Reformation:  
  - The Council of Trent reaffirmed most Church doctrine and practices.  
  - The Society of Jesus (The Jesuits) was founded to spread Catholic doctrine around the world. |
The Inquisition was used to reinforce Catholic doctrine.

WHII.3 The student will demonstrate knowledge of the Reformation in terms of its impact on Western civilization by
c) describing changing cultural values, traditions, and philosophies, and assessing the role of the printing press.

<table>

</thead>
</table>
| At first, the Reformation divided the countries of Europe on religious principles, leading to religious intolerance. | What were some of the changing cultural values, traditions, and philosophies during the Reformation? | **Changing cultural values, traditions, and philosophies**
  * Growth of secularism
  * Growth of individualism
  * Eventual growth of religious tolerance |
| Power in most European states was concentrated in the monarch. | What was the role of the printing press in the spread of new ideas? | **Role of the printing press**
  * Growth of literacy was stimulated by the Gutenberg printing press.
  * The Bible was printed in English, French, and German.
  * These factors had an important impact on spreading the ideas of the Reformation and the Renaissance. |
| Gradually, religious toleration emerged. | | |
World History from 1500: European Exploration and Encounter

**Conceptual Lens**

**Change and Continuity:** Patterns of change and continuity are complex and shape the growth and development of societies.
- **Conflict and Cooperation** – Students understand that desires for resources and/or control lead to conflict and cooperation between individuals, groups, and societies
- **Innovation and Change** – Students understand that innovation creates change and all change has direct and indirect consequences

**Systems:** Civilizations are defined and shaped by numerous complex and interdependent systems.
- **Social System** – Students understand that cultural values and norms shape identity and behavior within groups, institutions, and states including the degree of freedom that exists within a society
- **Geographic Systems** – Students understand that geography and geographic characteristics influence the development of political, economic, and social systems

**SOL**

WHII.4 The student will demonstrate knowledge of the impact of the European Age of Discovery and expansion into the Americas, Africa, and Asia by
- a) explaining the roles and economic motivations of explorers and conquistadors;
- b) describing the influence of religion;
- c) explaining migration, settlement patterns, cultural diffusion, and social classes in the colonized areas;
- d) describing the Columbian Exchange, including its impact on native populations;
- e) mapping and explaining the triangular trade;
- f) describing the impact of precious metal exports from the Americas.

</table>
Ideas and examples of these revolutions influenced the people of Latin America to establish independent nations, most notably in Haiti and Mexico.

**American independence movements?**

**Influence of the American and French Revolutions on Latin America**
- Slaves in Haiti rebelled, abolished slavery, and won independence.
- Father Miguel Hidalgo started the Mexican independence movement.
- French, Spanish, and Portuguese colonies gained independence.

**Selected countries that gained independence during the 1800s**
- Mexico
- Haiti
- Colombia
- Venezuela
- Brazil

---

**WHII.7** The student will demonstrate knowledge of the Latin American revolutions of the nineteenth century by

c) explaining the contributions of Toussaint L’Ouverture and Simón Bolívar;

| After the American Revolution, the United States wished to prevent foreign interference in America. The Monroe Doctrine was issued in 1823, alerting European powers that the American continents should not be considered for any future colonization. | How did the Monroe Doctrine impact revolutions in Latin America?                          | Impact of the Monroe Doctrine
|                                                                                               |                                                                                        | • The Monroe Doctrine was issued by President James Monroe in 1823.                     |
|                                                                                               |                                                                                        | • Latin American nations were acknowledged to be independent.                            |
|                                                                                               |                                                                                        | • The United States would regard as a threat to its own peace and safety any attempt by European powers to impose their system on any independent state in the Western Hemisphere. |
Conceptual Lens
Change and Continuity: Patterns of change and continuity are complex and shape the growth and development of societies.
- **Conflict and Cooperation** – Students understand that desires for resources and/or control lead to conflict and cooperation between individuals, groups, and societies
- **Patterns and Relationships** - Students recognize and be able to explain historical patterns to better understand the relationship between discrete events across time and place
- **Choice and Consequence** – Students understand that individuals, groups, and societies make choices based on the direct and indirect consequences they expect to occur
- **Innovation and Change** – Students understand that innovation creates change and all change has direct and indirect consequences

Systems: Civilizations are defined and shaped by numerous complex and interdependent systems.
- **Social Systems** – Students understand that cultural values and norms shape identity and behavior within groups, institutions, and states Including the degree of freedom that exists within a society
- **Political Systems** – Students understand societies employ various methods to establish and maintain order and authority and that political structures influence the degree of freedom individuals and groups have in a society
- **Geographic Systems** – Students understand that geography and geographic characteristics influence the development of political, economic, and social systems

| The Industrial Revolution began in England and spread to the rest of Western Europe and the United States. | Why did the Industrial Revolution originate in England? | **Industrial Revolution**
- Originated in England because of its natural resources (e.g., coal, iron ore) and the invention and improvement of the steam engine |
| With the Industrial Revolution came an increased demand for raw materials from the Americas, Asia, and Africa. | Why did the spread of industrialism to Europe and the United States accelerate colonialism and imperialism? | • Spread to Europe and the United States |
| Advancements in technology produced the Industrial Revolution, while advancements in science and medicine altered the lives of people living in the | How did the Industrial Revolution produce changes in culture and society? | • Role of cotton textile, iron, and steel industries |
| | | • Relationship to the British Enclosure Movement |
| | | • Rise of the factory system and demise of cottage industries |
| | | • Rising economic powers that wanted to control raw materials and markets throughout the world |

**Technological advances that produced the Industrial Revolution**
- Spinning jenny: James Hargreaves
new industrial cities. Cultural changes soon followed.

| Steam engine: James Watt |
| Cotton gin: Eli Whitney |
| Process for making steel: Henry Bessemer |

**Advancements in science and medicine**
- Development of smallpox vaccination: Edward Jenner
- Discovery of bacteria: Louis Pasteur

**Impacts of the Industrial Revolution on industrialized countries**
- Population increase
- Increased standards of living for many but not all
- Improved transportation
- Urbanization
- Environmental pollution
- Increased education
- Dissatisfaction of working class with working conditions
- Growth of the middle class

**WHII.9** The student will demonstrate knowledge of the effects of the Industrial Revolution during the nineteenth century by

| Agricultural economies were based on the family unit. The Industrial Revolution had a significant impact on the structure and function of the family. The Industrial Revolution placed new demands on the labor of men, women, and children. Workers organized labor unions to fight for improved working conditions and workers’ rights. | How did the Industrial Revolution impact the lives of women, children, and the family? How did the Industrial Revolution affect slavery? Why did workers organize into labor unions? | The nature of work in the factory system  
- Family-based cottage industries displaced by the factory system  
- Harsh working conditions with men competing with women and children for wages  
- Child labor that kept costs of production low and profits high  
- Owners of mines and factories who exercised considerable control over the lives of their laborers  

Impact of the Industrial Revolution on slavery  
- The cotton gin increased demand for slave labor on American plantations.  
- The United States and Britain outlawed the slave trade and then slavery. |
**Social effects of the Industrial Revolution**
- Women and children entering the workplace as cheap labor
- Introduction of reforms to end child labor
- Expansion of education
- Women’s increased demands for suffrage

**The rise of labor unions**
- Encouraged worker-organized strikes to demand increased wages and improved working conditions
- Lobbied for laws to improve the lives of workers, including women and children
- Wanted workers’ rights and collective bargaining between labor and management

WHII.9 The student will demonstrate knowledge of the effects of the Industrial Revolution during the nineteenth century by

World War I (1914-1918) was caused by competition among industrial nations in Europe and a failure of diplomacy. The war transformed European and American life, wrecked the economies of Europe, and planted the seeds for a second world war.

What were the factors that produced World War I? What were the major events of the war? Who were the major leaders? What were the outcomes and global effects of World War I? What were the terms of the Treaty of Versailles?

**Causes of World War I**
- Alliances that divided Europe into competing camps
- Nationalistic feelings
- Diplomatic failures
- Imperialism
- Competition over colonies
- Militarism

**Major events**
- Assassination of Austria’s Archduke Ferdinand
- United States enters the war
- Russia leaves the war

**Major leaders**
- Woodrow Wilson
- Kaiser Wilhelm II

**Outcomes and global effect**
- Colonies’ participation in the war, which increased demands for independence
- End of the Russian Imperial, Ottoman, German, and Austro-Hungarian empires
- Enormous cost of the war in lives, property, and social disruption

**Treaty of Versailles**
- Forced Germany to accept responsibility for war and loss of territory and to pay reparations
- Limited the German military
- League of Nations

WHII.10 The student will demonstrate knowledge of the worldwide impact of World War I by citing causes and consequences of the Russian Revolution.
Tsarist Russia entered World War I as an absolute monarchy with sharp class divisions between the nobility and the peasants. The grievances of workers and peasants were not resolved by the Tsar. Inadequate administration in World War I led to revolution and an unsuccessful provisional government. A second revolution by the Bolsheviks created the communist state that ultimately became the U.S.S.R.

### Why did Russia erupt in revolution while fighting in World War I?

- Causes of 1917 revolutions
  - Defeat in war with Japan in 1905
  - Landless peasantry
  - Incompetence of Tsar Nicholas II
  - Military defeats and high casualties in World War I

### How did communism rise in Russia?

- Rise of communism
  - Bolshevik Revolution and civil war
  - Vladimir Lenin's New Economic Policy
  - Joseph Stalin, Lenin's successor

---

WHII.11 The student will demonstrate knowledge of political, economic, social, and cultural developments during the Interwar Period by

a) describing the League of Nations and the mandate system;

### After World War I, international organizations and agreements were established to avoid future conflicts.

- League of Nations
  - International cooperative organization
  - Established to prevent future wars
  - United States not a member
  - Failure of League because it did not have power to enforce its decisions
The mandate system
- During World War I, Great Britain and France agreed to divide large portions of the Ottoman Empire in the Middle East between themselves.
- After the war, the "mandate system" gave Great Britain and France control over the lands that became Iraq, Transjordan, and Palestine (British controlled) and Syria and Lebanon (French controlled).
- The division of the Ottoman Empire through the mandate system planted the seeds for future conflicts in the Middle East.

| Economic disruptions following World War I led to unstable political conditions. Worldwide depression in the 1930s provided opportunities for the rise of dictators in the Soviet Union, Germany, Italy, and Japan. | Why did dictatorial governments emerge in Germany, Italy, Japan, and the U.S.S.R. after World War I? | **U.S.S.R. during the Interwar Period — Joseph Stalin**  
- Entrenchment of communism  
- Stalin’s policies: Five-year plans, collectivization of farms, state industrialization, secret police  
- Great Purge  
**Germany during the Interwar Period — Adolf Hitler**  
- Inflation and depression  
- Democratic government weakened  
- Anti-Semitism  
- Extreme nationalism  
- National Socialism (Nazism)  
- German occupation of nearby countries  
**Italy during the Interwar Period — Benito Mussolini**  
- Rise of fascism  
- Ambition to restore the glory of Rome  
- Invasion of Ethiopia  
**Japan during the Interwar Period — Hirohito and Hideki Tojo**  
- Militarism |
| A communist dictatorship was established by Vladimir Lenin and continued by Joseph Stalin in the Soviet Union. | How did these regimes affect the world following World War I? |  |
| The Treaty of Versailles worsened economic and political conditions in Europe and led to the rise of totalitarian regimes in Italy and Germany. |  |  |
| Japan emerged as a world power after World War I and conducted aggressive imperialistic policies in Asia. |  |  |
Many economic and political causes led to World War II. Major theaters of war included Africa, Europe, Asia, and the Pacific Islands. Leadership was essential to the Allied victory.

World History from 1500: The Cold War from a Global Perspective

Conceptual Lens

Change and Continuity: Patterns of change and continuity are complex and shape the growth and development of societies.
- **Conflict and Cooperation** – Students understand that desires for resources and/or control lead to conflict and cooperation between individuals, groups, and societies
- **Patterns and Relationships** - Students recognize and be able to explain historical patterns to better understand the relationship between discrete events across time and place
- **Choice and Consequence** – Students understand that individuals, groups, and societies make choices based on the direct and indirect consequences they expect to occur

Systems: Civilizations are defined and shaped by numerous complex and interdependent systems.
- **Political Systems** – Students understand societies employ various methods to establish and maintain order and authority and that political structures influence the degree of freedom individuals and groups have in a society

SOL

WHII.13 The student will demonstrate knowledge of major events in the second half of the twentieth century by
a) explaining key events of the Cold War, including the competition between the American and Soviet economic and political systems and the causes of the collapse of communism in the Soviet Union and Eastern Europe;
b) assessing the impact of nuclear weaponry on patterns of conflict and cooperation since 1945;
c) describing conflicts and revolutionary movements in eastern Asia, including those in China and Vietnam, and their major leaders, i.e., Mao Tse-tung (Zedong), Chiang Kai-shek, and Ho Chi Minh;
d) describing major contributions of selected world leaders in the second half of the twentieth century, including Indira Gandhi, Margaret Thatcher, Mikhail Gorbachev, and Deng Xiaoping.

<th>VDOE Essential Knowledge</th>
</tr>
</thead>
</table>
| Japanese occupation of European colonies in Asia heightened demands for independence after World War II. | How did the Cold War influence conflicts in Eastern Asia after World War II? | **Terms to know**
- containment: A policy for preventing the expansion of communism

**Conflicts and revolutionary movements in China**
- Division of China into two nations at the end of the Chinese civil war
- Chiang Kai-shek (Jiang Jieshi): Nationalist China (island of Taiwan)
- Mao Tse-tung (Mao Zedong): Communist China (mainland China)
- Continuing conflict between the two Chinas
- Communist China’s participation in Korean War

After World War II, the United States pursued a policy of containment against communism. This policy included the development of regional alliances against Soviet and Chinese aggression. The Cold War led to armed conflict in Korea and Vietnam.
### Conflicts and revolutionary movements in Vietnam
- Role of French Imperialism
- Leadership of Ho Chi Minh
- Vietnam as a divided nation
- Influence of policy of containment
- The United States and the Vietnam War
- Vietnam as a reunited communist country today

**WHII.13** The student will demonstrate knowledge of major events in the second half of the twentieth century by describing major contributions of selected world leaders in the second half of the twentieth century, including Indira Gandhi, Margaret Thatcher, Mikhail Gorbachev, and Deng Xiaoping.

| British policies and India’s demand for self-rule led to the rise of the Indian independence movement, resulting in the creation of new states in the Indian sub-continent. The Republic of India, a democratic nation, developed after the country gained independence. | Who was a leader of the Indian independence movement, and what tactics did he use? What were the outcomes of the Indian independence movement? | Regional setting for the Indian independence movement
• Indian sub-continent
• British India
• India
• Pakistan (formerly West Pakistan)
• Bangladesh (formerly East Pakistan)
• Sri Lanka (formerly Ceylon)

Evolution of the Indian independence movement
• British rule in India
• Indian National Congress
• Leadership of Mohandas Gandhi
• Role of civil disobedience and passive resistance |
Political division along Hindu-Muslim lines — Pakistan/India
Republic of India
– World's largest democratic nation
– Federal system, giving many powers to the states

**Indian democracy**
• Jawaharlal Nehru, a close associate of Gandhi, supported western-style industrialization.
• 1950 Constitution sought to prohibit caste discrimination.
• Ethnic and religious differences caused problems in the development of India as a democratic nation.
• New economic development has helped to ease financial problems of the nation.

WHII.14 The student will demonstrate knowledge of political, economic, social, and cultural aspects of independence movements and development efforts by
