Level 2: Academic Communication in a World Language
This course continues to build on skills learned in the first year of the language by engaging students in immersive classroom environments. Students focus extensively on building capacity and confidence to speak in the target language and build proficiency in listening, reading, writing, and culture. Students will participate in projects and field experiences that connect with cultures and communities that use the target language and explore themes of families and communities, global challenges, contemporary life, and science and technology. Students continue to build a strong foundation for multicultural and multilingual academic success.

AP Themes Focused on in This Course:
- Families & Communities: Customs and ceremonies, typical meals, friendship & love, formal and informal registers (e.g. sweet sixteen; speaking to members of the family vs. people in the community; shaking hands vs. hugs or kisses)
- Global Challenges: Geography and health issues (e.g. Countries and regions where language is spoken; compare and contrast common diseases and health standards)
- Contemporary Life: Holidays and Celebrations; Housing and shelter (e.g. 4th of July, Thanksgiving; parts of the house, typical housing types)
- Science & Technology: The new media, social impact of technology, transportation (e.g. iphones, apps, social media; methods of transportation)
Concept: Communication

Enduring Understanding: Language empowers people to shape the world through the expression of information, opinions, and ideas.

Essential Standards

- **2.1A Presentational Speaking**: Present orally (using multiple media, the arts and technology) information in the target language that combines learned and original language in simple sentences and paragraphs (e.g. perform skits, poems, plays, and/or songs; give a presentation on personal information; participate in a fishbowl discussion; present an opinion with supporting evidence; offer and respond to greetings, invitations, compliments, and apologies; tell a brief story about an imaginary or real event following a model provided by the teacher).
- **2.1B Interpersonal Speaking**: Participate in brief conversations with peers or other sympathetic listeners (e.g., discuss plans for a family gathering; talk about a new friend of boy/girlfriend).
- **2.1C Presentational Writing**: Write to express ideas and opinions in multi-paragraph compositions that use main ideas and supporting details to organize a message (e.g. write paragraphs about familiar information; create an autobiography or personal narrative; compose written responses to media; compose a short dialogue between two characters in a story; complete a written set of instructions to carry out a simple experiment; compose letters to friends and family members; write a poem modeled on a simple structure studied in class, such as a haiku or sonnet; write thoughts in a dialogue journal exchanged with the teacher or a classmate.)
- **2.1D Interpersonal Writing**: Respond to an email, text message or letter and respond to content and questions asked by another person with clarity, originality, and a wide breadth of vocabulary (e.g. Write a letter of interest to a sports camp or scholarship program).
- **2.1E Listening Comprehension**: Demonstrate comprehension of information in directions, instructions, interactions, and classroom presentations on familiar and new topics, with contextual and visual support (e.g., follow oral directions to complete class assignments; obtain specific information over the telephone such as bus departure times, entertainment schedules, and business opening and closing hours; list key ideas from a public announcement; complete a graphic organizer with information from a classroom presentation; record relevant information from youtube videos and other audio data to complete a do-it-yourself project; interview a classmate in order to introduce him or her to the larger group).
- **2.1F Reading Comprehension**: Demonstrate an understanding of adapted and authentic texts in a variety of ways (e.g. complete an outline of an article through a jigsaw reading group process, complete a graphic organizer showing the causes and effects of an event described in a literary or informational text; maintain a learning log while reading a text; write short book reports; discuss personal connections with specific passages or events in a story or book). Teacher prompts: “What strategies did you use (or what did you do) during the jigsaw reading activity to make sure that everyone in your home group understood the passage?” “What decisions did the main character in the story make?”
### Essential Questions:
- What skills are necessary to sustain speech for a presentation?
- How is it different to carry on an impromptu versus a prepared conversation?
- Why are structure and grammar important when writing a persuasive idea or argument?
- What are the necessary elements when writing to a variety of people across different cultures?
- What role does reading play in developing language skills?
