

The Albemarle County Public School Board has established a School Health Advisory Board to serve as a resource to the school board regarding matters of school health. The health advisory board assists with the development of health policy in the school division and the evaluation of the status of school health, health education, the school environment, and health services.

The health advisory board consists of broad-based community representation including, but not limited to, parents, students, health professionals, educators, and others. The School Board appoints community members for 2-year terms eligible for renewal. Interested school employees or community members may apply for board membership at regular intervals. Solicitations for applications will be issued when current terms expire or positions are vacated.

The health advisory board meets at least four times annually and makes at least annual recommendations to the School Board.

Meetings for SY 2018 – 2019 will be in room 320 of the McIntire County Office Building and are scheduled for:

September 26, 2018

January 16, 2019

March 20, 2019

May 15, 2019

Please contact [Eileen Gomez](#) for more information.
